1. STAFFING

Currently have 19 electricians on the program, with 16 on the ground.

- This puts us at 89% of the contractual requirement for staffing on the ground.
- We have seven (7) of the required nine (9) teams per the PWS on the ground, putting us at 78%.
- The mix ratio of US/UK electricians is currently 78% U.K. and 22% U.S. based on the requirement of eighteen (18) electricians.

2. RECRUITMENT

- Proving to be difficult with no contract award and the uncertainty of the required number of teams.
